

# CURIOSITY IS THE ROOT OF OUR CREATIVITY

Healthcare organizations are being challenged to think differently about how they deliver care and create a competitive advantage. The advent and acceptance of evidence-based medicine and outcomes-based reimbursement incentives has created a growing expectation for healthcare design firms to provide innovative, proven solutions to meet their needs. HGA works with leading academic, community, and rural health organizations to ensure the design, delivery, and operation of their facilities support their strategy and mission.

## ABOUT HGA

We are a national multidisciplinary design firm rooted in architecture and engineering. We believe that the best design results from deep insight into the people and passions that animate each unique environment. More than 850 people in 11 offices from coast to coast work to make a positive, lasting impact for clients in healthcare, arts and culture, community, corporate, education, government, science and technology, and energy markets.
