

HEALTHCARE DESIGN

Troy Grand Rapids www.ids-michigan.com 248-823-2100

ABOUT US

We specialize in creating comfortable and highly functional healthcare spaces.

We thrive when we have the opportunity to master plan your campus, design a new facility, or renovate existing spaces. Successful healthcare planning requires thoughtful design, detailed project management, and careful construction strategies to deliver world-class solutions.

Our experts will manage your projects and engage your team with a process to achieve positive outcomes tailored to your specific goals, financial requirements, and timeline.
