Job Description

Full-time salaried position for a project manager/architect. Candidates must possess a passion for design and key strengths in organization, time management and client service. Must be a team-player and able to adapt to various team structures working independently and as part of a larger team. Job will include design tasks including innovative design, code interpretation, design development, construction documents, and consultant coordination.

- **Compensation**
Commensurate with experience. Flexible schedule. Benefits include health insurance, dental, 401k with matching, annual allowance of CEU hours and more.
- **Education**
Bachelor of Architecture
- **Experience**
4 years minimum experience in architecture and/or design; emphasis on design-development, planning, construction documents and project management
- **Certifications**
Registered Architect preferred; candidates not yet licensed but working towards licensure will be considered.
- **Technical**
Revit, AutoCAD, Adobe Creative Suite, or other 3D rendering software are preferred
