

Faudie Architecture is seeking creative individuals to join our team!

Faudie Architecture is seeking qualified individuals to work with licensed architects on a wide range of Office and Commercial projects. Applicants should be creative, technically proficient and possess a passion for Architecture

Positions Available:

Architectural Project Manager (5 to 7 years' experience)

Qualifications:

- Bachelor's or master's degree from an accredited Architectural school
- 5 to 7 years of experience in an architect's office post-graduation
- Fluent in AutoCAD and Sketchup
- BIM and/or Revit optional/recommended
- Organized and good with time management in order to handle multiple short-term tasks and long-term deadlines
- Experience with client relationships

Responsibilities include:

- Project management
- Preparation of 3D models and architectural renderings
- Field measuring and verification of existing building conditions
- Schematic design including programming, space planning and presentation documents
- Preparation of architectural construction documents
- Preparation of as-built record drawings

This is a full-time position with excellent benefits including paid personal and vacation time, health care, and retirement plan. Salary is based on experience.
