

Knowledge Community: Interior Architecture Committee

Who we are

The Interior Architecture Knowledge Committee (IAKC) is committed to advancing the practice of Interior Architecture by providing its membership with resources to elevate their professional practice and design excellence. We serve to facilitate a national dialogue that addresses a range of key issues, including innovative design and programming, the incorporation of sustainable materials and technologies, and the social, cultural, and spatial impact of architecture on human experience. IAKC seeks to address national issues with regional sensitivity, providing a platform for its membership to share knowledge, gain expertise, and form collaborative relationships with industry peers and allied partners.
