

NSA Architecture is seeking a **Senior Design Architect** to join its growing team to support a broad range of architectural projects in both new construction and renovation.

Responsibilities:

- Assist in the creation and development of design concepts and presentations for projects.
- Maintain conformance with building standards, established architectural practices, and applicable building codes.
- Coordinate design initiatives with architectural, mechanical, electrical, and structural disciplines.
- Create 3D Architectural Design models for design expressions.
- Develop design deliverables and presentation exhibits for clients and owners.

Minimum Qualifications:

- Licensed Architect with Bachelor's Degree in architecture from an accredited architectural learning institution.
- 10+ years of experience required in an architectural or interior design firm.
- Exceptional graphic presentation skills with high technical proficiency in Revit, AutoCAD, Photoshop and Sketchup programs.
- An understanding of programming, space planning, exterior/interior design and knowledge of production practices to develop technical drawings and models.
- Ability to communicate & present design ideas.
- Excellent oral and written communication skills.
- Ability to organize and handle multiple project assignments.
- Legally authorized to work in the US without sponsorship.

NSA Architecture, founded in 1960, is a full-service Architectural firm providing planning, design, and engineering services for the built environment.
